SUMMARY

Product management professional building an intelligent shopping agent at Glance AI, delivering AI-native consumer experiences through agentic workflows, Harness, skills, evals and experimentation. Previously scaled a ~₹10 Cr/year global operation at Hudl and built 0→1 AI-native products through user discovery and rapid prototyping. Multi-time IIM & IIT national case competition winner.

EDUCATION

Scaler School of Business | *PGP- Management & Technology,* ***Majors in Product & Marketing*** | **GP 3.5/4** *Sep 25 – Mar 27*

- **President, Product Club:** Led 10+ core members and engaged 30+ club members; organized case comps, **12-hour National hackathon**, and hosted leaders from Swiggy, Zepto, J.P Morgan and Genpact

Ramrao Adik Institute of Technology, DY Patil University | *B.E. Electronics* *Jun 17 – Jun 21*

- **Vice-President, Sports Club:** Led **400+ participant tournaments**, delivering on-time execution within ₹1L budget
- Built ML models on 5-season ISL data to predict player ratings, achieving **92% accuracy** across positions

SKILLS

- **Product:** Prompt Engineering, Agentic AI, Evals, User Research, ICP Definition, GTM Strategy, PRDs, Roadmapping, Funnel Optimization, User Segmentation, Competitive Analysis, Stakeholder Management, Agile, Rapid Prototyping
- **Analytics:** Cohort Analysis, Funnel Analysis, A/B Testing, North-Star Definition
- **Tools:** Claude, Databricks, Google Antigravity, n8n, Replit, Figma, Notion, Postman, Google Apps Script (Workflow Automation), Zapier

WORK EXPERIENCE

Product Management | Glance (InMobi Group) | AI-powered intelligent consumer experiences across TV Screens *Jun 26 - Present*

• Built Glance's Intelligent Shopping Agent for **2.7M+ DAU** TVs across US, India & Japan using **agentic AI workflows**
• Owned agent skills, prompt evaluations & UX flows; partnered with Design, Backend & ML to ship AI experiences
• Evaluated LLMs, optimized routing, context windows & API orchestration; reduced inference cost ~99% via Gemini → Qwen

Hudl | Elite Projects - Pune & Mumbai, India | *Sports-tech platform for video analysis, scouting, & team performance.*
Promoted across roles: Sports Analyst → Team Lead → Queue Lead

Queue Lead (Wyscout) *Jun 24 – Jul 25*

- Owned daily output of **1,200+ matches** across 5 global facilities serving enterprise clubs and federations; **+7% on-time delivery.**
- Worked with clients, sales, engineering, and ops to find root cause of daily issues; unblocked **80+ stuck matches/month.**
- Resolved queue-block bugs & drove workflow improvements with platform team; **saved 100+ hours/quarter** (~**₹10L** productivity gains).
- Ran an A/B test of a feature-reduced tagging build vs legacy across two cohorts, **validating a 20% faster workflow** before rollout.

Team Lead (Wyscout) *Jul 22 – May 24*

- Managed **25-analyst pod** end-to-end (allocation, QA, queries, coaching); awarded "**Best Team Lead**" twice across consecutive seasons.
- Tracked and acted on dashboard metrics (match TAT, quality, idle time) to lift team **throughput 10–12%** across 2 league seasons.
- Cut new-hire ramp **+30% (3→2 weeks)** & lifted **output 100% (1→2 matches/shift)** in month 1 via redesigned hands-on tagging.
- Spearheaded Pune branch from 0 (hiring→production); built 200+ analysts, team leads, QA at ~**30%** of **global** capacity (~**₹10 Cr**/year ops).

AI-NATIVE PRODUCT BUILDS (*View Portfolio ↗*) *Oct 25 - Present*

Football Coach Platform ***(Google Antigravity · Rapid Prototyping)***

- Interviewed 8+ grassroots coaches; built a unified platform with player logs, video tagging, match metrics, and training plans.
- Shipped one-click PDF parent reports; **replaced 2–3 hrs/week of Excel** work and shifted coaching from memory-based to data-driven.

College Fest Ops CRM ***(VS Code · Vibe Coding)***

- Built internal CRM to replace WhatsApp + Excel chaos; centralized sponsors, owners, and status across 5 fest workstreams.
- **Cut weekly sync time by ~35%** and eliminated dependency gaps; adopted by the core council for the flagship business fest.

Automated Catalog Generator ***(n8n · Workflow Automation)***

- Spotted SKU/pricing/inventory updates as the most repetitive manual task in own D2C; built n8n workflow to auto-sync catalogs.
- **Saved ~4–5 hrs/week** per founder and improved SKU-data consistency by ~25% via automated validation; built during internal hackathon.

PROJECTS (*View Portfolio ↗*)

Quenzy | D2C Functional Health Drink | GTM Strategy

- Ran user research + competitor mapping; defined ICP, pricing tiers, and channels; pitched guerrilla-marketing playbook.
- GTM targeted **+15–20% conversion uplift** with a defensible CAC:LTV ratio across DTC, modern trade, and creator-led channels.

D2C Co-founder | Demi-fine Jewelry

- Spotted demi-fine jewelry white-space and launched D2C brand; grew to **₹1L revenue in 6 weeks** (70% paid / 30% organic).
- Earned cohort's **highest AOV (~2.5–3x avg)** via 2–3x-cost premium pricing and Instagram repeat-buyer community.

Practo | Health-tech | GMV Strategy

- Ran interviews + surveys to segment by behavior & psychographics, mapped pain across discovery→consult→repeat funnel.
- Designed product-led GMV strategy (care pathways, bundled consults); targeted **+25% GMV, +18% conversion, +30% repeat.**

Spotify | Product Strategy | Revenue Growth

- Segmented **475M+ Free users** by willingness to pay, behavior, and tenure (40 personas); surfaced 2 high-conversion segments.
- Designed behavior-triggered Premium trials (offline at ad breaks, unlimited skips at cap); **~$338M / ₹2,800 Cr upside projected.**

TOP ACHIEVEMENTS

- Winner of multiple national case competitions across IIMs & IITs, securing Top 3 finishes while solving live product, AI, GTM, and growth challenges for brands including Paytm, Flipkart, HUL, and Quick Commerce.
